

EVERYTHING IS CONTEXT

AI expands what can be retained and retrieved. Humans still govern what becomes legitimate action.

AUTHORIZED ORGANIZATIONAL MEMORY

Retain the record before future relevance is known.

Provenance, timing, ownership, relationships, and access rules travel with it.

FORMAL RECORD

Financials

Final plans

Policies

Contracts

CONTEXT HUMANS OFTEN DISCARDED

Drafts

Objections

Workarounds

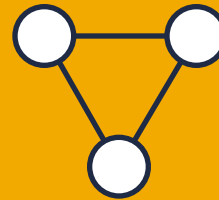

Meeting notes

Failed attempts

Tacit knowledge

Discard was a human capacity decision, not a property of the information.

AI RETRIEVES + RELATES

Finds connections human
attention could not keep
active.

AI DOES NOT APPROVE

FIVE HUMAN-READABLE GOVERNANCE VIEWS

01 FINANCIAL

02 OPERATIONAL

03 CAPACITY

04 LEARNING + INNOVATION

05 EXTERNALITIES + EQUITY

HUMAN GOVERNANCE

Validate evidence

Set access

Assign authority

Approve tradeoffs

Record accountability

INSTITUTIONAL ACTION

Decision / Plan / Objective / Policy / Review

Everything is context. Inclusion is not belief. Retrieval is not authority.
